# xdcX

Empowering the XDC Community with LSD

New Liquidity Potential with enhanced User Benefits and Ecosystem Growth

What's xdcX / LSDs?

___

- Definition
  - No servers required
  - Staking for the masses

- Yield-bearing vs rebasing
  - Not 1:1

- Unlocking for DeFi: lending, borrowing…

Traditional Staking **VS** Liquid Staking

Staking XDC | X

Liquid staking XDC | X | X | mint **xdcX**

xdcX can be swapped / transferred / deposited

Why on XDC?

- No current LSD tokens.
- Breaking Barriers.
  - ~300.000 USD to access staking
  - KYC
  - Technological skills needed
  - Maintenance
 - Beacon Chain abstraction
- Benefits for current solo stakers

Key Features

———

- 1:1 until reaching 10,000,000 XDC
  - still, liquid

- Unstake at any time
  - If delegated, ensure 10,000,000
  - Instant withdrawals
  - No penalties

- Yield-bearing XRC20 token
  - Generates yields by simply holding it
  - Redeem → staked amount plus generated yield as reward

Ecosystem development

- Secondary markets
  - XSwap

- AAVE like (crypto lending) use cases
  - Enhanced liquidity
  - Space for new innovation
  - RapidFlow Finance

Say no more, I wanna see it!
